

CITY OF LODI

COUNCIL COMMUNICATION

Agenda Title: Traffic Resolution Amendment - Lincoln Avenue and Louie Avenue, Intersection Control

Meeting Date: August 18, 1993

Prepared By: Public Works Director

Recommended Action: That the City Council adopt a resolution amending the Traffic Resolution #87-163 to approve the conversion from "yield" signs to "stop" signs on Lincoln Avenue at Louie Avenue as shown on the attached map (Exhibit A).

Background Information: The traffic control at the intersection of Lincoln Avenue and Louie Avenue has been studied due to a citizen request and staff's concern regarding the number of recent accidents occurring at this location. The City's informal guideline on installing traffic controls on minor streets is based on traffic volumes and the number of correctable accidents. Currently, Lincoln Avenue traffic is controlled by a yield sign at Louie Avenue.

Recent traffic volume counts on Lincoln Avenue and Louie Avenue are 395 and 610 vehicles per day, respectively. Available accident records indicate that the number of accidents correctable with the installation of stop signs at this location has increased from one accident in 1992 to three accidents in 1993 (through mid July). Although staff did not observe any unusual conditions at this location, the low traffic volumes and number of correctable accidents indicates that a "stop" control is appropriate for this location.

Based on these factors, staff recommends that City Council approve the conversion from "yield" signs to "stop" signs on Lincoln Avenue at Louie Avenue. Multi-way stop controls are not justified at this location.

Funding: Funding to be provided by the Street Maintenance Account at an approximate cost of \$450.
